Published – March 2008.

**The first guide of its kind for the region  
And  
Latest in the Crossbill Series**

RRP: ..... £18.95 plus carriage

WildGuides and Crossbill Guides Foundation have added **a new guidebook** to its series of nature guides. The Hortobágy is Hungary's most famous National Park, and covers a large area of marshlands and *Puszta*, the Hungarian steppes. It is one of the westernmost protrusions of the essentially central Asian steppe ecosystem, thereby holding the promise of exotic, eastern species of plants and animals. It is famous as a bird sanctuary and harbours hundreds of egrets, herons, Spoonbills, Pygmy Cormorants and steppe birds like Saker and Great Bustard.

- ✓ Contains a full description of the landscapes and scenery of the National Park region, its Steppe and Puszta.
- ✓ Includes a geographical and habitat overview which helps to explain the special nature of the region's wildlife
- ✓ Deals with the history of the Hungarian countryside and how it has been fashioned into what it is today
- ✓ The flora, birds, insects, reptiles and amphibians, each have a section describing their special requirements and where they might be found.
- ✓ The main section of the book contains suggested routes for walks and cycle rides around eight sections of the park, including maps and special points of interest.

**Readership:** For all who enjoy being in and learning about nature, and who want to know where to go and what one will see.
